KNOW
our Asparagus

ASPARAGUS is too good for just a chance acquaintance. Some of those foods that you like to eat with your fingers, or good music, impressionistic paintings. Know them, that there are two kinds of canned asparagus—one white and the green. These are canned from the same seed. Only they are picked differently. The asparagus is green because the tips of the spears have been kept above the ground through the sun and see the sun for a while. White asparagus remains white because it is picked before being exposed to the sun.

From Giant to Tiny

About grades. Asparagus is graded according to size and it is packed both as spears and as tips. Spears are especially nice for cooked dishes and tips are often preferred for salads, sandwiches, etc. From giant to tiny—here are the grades: Giant contains eight to twelve spears to a No. 2½ can; Colossal contains thirteen to sixteen; Mammoth contains seventeen to twenty-four; Large contains twenty-five to thirty-four; Medium contains thirty-five to forty-four; and Small contains forty-five to sixty. The grades of tips are the same, except that Mammoth is the largest and Tiny is the smallest.

Know these facts about asparagus, and if you are a careful buyer you can stock up with asparagus when it is on sale, and select the kinds and sizes most adapted to your own use.*

ONE of the lowest priced and most economical cars in the world today stands in a class by itself for sheer performance and driving pleasure. Over two and a half million American motorists have swung to it in less than four years. Over one million chose it in 1935 alone.

That car is the Ford V-8. Now we urge you to drive this great new 1936 Ford V-8 before you decide on any car at any price. We urge you to know for yourself the "feel" of Ford V-8 engine performance—the almost effortless ease of handling—the remarkable stability under all road conditions—the true fine-car riding comfort—which have "taken hold" so quickly and convincingly with the hardest-buying audience that ever tested America's cars. Before you set out to judge modern motor car values, get the "feel" of the one low-price car that's in a class all by itself!

A B C Board Revenue Off For March

During March, for the first time in the history of the state liquor stores, sales of the alcoholic beverage control board fell below those for the corresponding month of the previous year. In March of this year, the ABC stores' intake was $1,003,340, representing a decline of 5.9 per cent under the March 1935 figures. The report covers sales of hard liquors and wines at state stores.

Hard liquor consumption has fallen off, but wine sales have advanced until the total gallonage is above that of last year in spite of the lower intake of money.

The ABC board has reported that it has an inventory stock turnover 12.34 times a year, or oftener than once every five weeks. The average bottle price is 90.2 cents, and the clerk salary cost per bottle is 2.5 cents.

Wisconsin Seed Corn on Exhibit in North Carolina

One of Country's Largest Producers Describes Soil Building Methods

Tobacco growers of this section who include corn in their rotation will be interested in the cultural methods of W. J. Jacques of Prescott, Wis., one of the largest field seed corn growers of the country. Samples of his crop have just reached the offices of The American Agricultural Chemical Company at Greensboro, N. C. Aside from the outstanding yields obtained by Mr. Jacques, as high as 106 bushels an acre, his methods built up soil fertility instead of sapping it.

A 75-bushel per acre corn crop takes 70 pounds of nitrogen, 20 pounds of phosphate and 20 pounds of potash from the soil. Farming methods in this section provide only soda, or nitrogen, to replace the plant foods used up by the corn crop, thus leaving the soil in less fertile condition for tobacco, a heavy feeder on phosphate and potash. Obviously, a balanced fertilizer such as 3-12-6, which costs no more than soda, will produce more and better corn and will build up the soil for a following tobacco crop.

Mr. Jacques has been growing seed corn all his life, and has shipped to South America, South Africa and India. Most of his 20,000 bushel crop was fertilized both Agrico for Corn, and came through successfully in spite of one of the most disastrous "soft corn" years in the Corn Belt.

"On a 160-acre field of corn grown last season with Agrico," writes Mr. Jacques writes, "the yield averaged 80 bushels of seed corn. The quality was so good that less than one-half percent of the corn as harvested out of the field was unfit for seed. Seventeen consecutive hills harvested 57 perfect seed ears and only one nubbin. The ears all were securely tipped and filled out to the butt. Yield was yielded at the rate of 106 bushels per acre, figuring 77 pounds of corn to the bushel.

"We have found that this fertilizer reduces moisture content of seed corn by about 10 per cent. We insist that all our operators use Agrico because the difference in the quality of the corn alone pays for the cost of the fertilizer."

William H. Jacques, of Prescott, Wis., one of America's largest seed corn growers.

Mrs. Isabelle Turner Is Laid To Rest

Four Of Five Sons In World War; Large Crowd At Funeral

Mrs. Isabella Turner, one of the most highly esteemed ladies of this county, died at her home at Hollywood on May 9.

She was born April 19, 1866, the daughter of John and Charlotte Day, of Buckingham county. She married Benjamin Walker Beasley April 18, 1888, and to this union there were born six sons: Andrew Scott, who died in infancy; Titus Walker, Grover Palti, James Robert, Jerry Simpson, and Joseph Dewitt. Benjamin Walker Beasley died January 31, 1899. Then in January 1908, she married Henry Clay Turner, who died June 21, 1920. To this union no children were born.

She gave four of her five sons to patriotic service during the World War. Two of the sons, Sergeant James Robert, Co. F. 11th Infantry, 28th Division, and Sergeant Jerry Simpson, Co. D, 18th Infantry, 1st Division, were killed September 6 and October 4, 1918, respectively. The third son, Joseph Dewitt, who served in 47th Company, 5th Marines, 2nd Division, was wounded November 1st, 1918. The fourth son, Titus Walker, rendered services for the government in Washington, D.C., while the fifth son, Grover Palti, remained at home to care for his mother and step father.

To mourn her departure, she leaves one brother, W. D. Day, of Roanoke; and three sons: Titus Walker, of Bolivar, Missouri; Grover Palti, of Appomattox, and Joseph Dewitt, of Norfolk, Va.; two daughters in law, Mrs. Grover Palti Beasley and Mrs. Joseph Dewitt Beasley; six grand children and nine step children.

She made a confession of faith in Christ early in life and united with Old Mount Hope Baptist church and after moving to the Hollywood community in 1889, she united with Hollywood Baptist church and served as a faithful member and devoted Christian throughout the remainder of her life. It pleased her to render service to the sick and the poor whenever it was possible for her to do it. The home was always open to young and old people alike. She appreciated friendship and strived to be a friend to everybody.

Funeral services were held on Monday afternoon at 3 o'clock at the Hollywood Baptist church, conducted by the Reverends R. T. Smith W. M. Thompson, W. M. Black and O. G. Burnett. A tremendous throng attended, overflowing the church and churchyard. The following war veterans acted as active pallbearers: Raymond Beasley, Tommie Covington, Sterling Franklin, Charles Baggett, Richard L. Anderson and Allen Brisentine. Flower bearers were: Mary Covington, Gladys Ingo, Virginia Puckett, Mesdames George Dixon, A. T. Inge, Lucille Anderson Gladys Johnson, Lougenia Doss, Earl Robinson, Lillian Paris, Edna Covington, Jessie Turner, Hanes Marjorie Ferguson, Naomi Ferguson Bettie Bryant, Mrs. Robert Coleman and Mrs. Sam Ferguson.
